Deliver is a utility you really should install. With Deliver you can transfer and share your contents extremely easy between your iOS and Mac OS devices.â?? Features â??â?? Share text between devices and use them for messages and emailsâ?? Share files, preview them in Deliver and send them via emailsâ?? Lock your Deliver with password to hide it from the others, only devices using the same password can see each otherâ?? Works in local networks, such as devices connected to same router, personal hotspot, Wi-Fi...â?? Find Deliver for Mac in the Mac App Storeâ?? Examples of what Deliver can do... â??â?? Type text on Mac and send message or email by iPhoneâ?? Take a photo of your friend, send it to your own iPhone or iPad via personal hotspot connection, no need of MMSâ?? Transfer iPhone images wirelessly to Mac without iTunesâ?? Send any file between your devices without any file sharing protocolâ?? Chat with your classmates silently in a classroomâ?? Every way you create!â?? Requirements â??iPhone, iPad and iPod touch running iOS 5.0 or higherMac OS X 10.7 or higher
